*Helping Students Reach for the Stars....*

June 12, 2008

Dear Kathy,

This was one of the very best trainings we have provided our PPCD teachers, SLPs, OTs, PTs, and our Music Therapist! The response to the training was incredible. In fact, one teacher said it was the best training she had been to in 17 years hands down.

The participants repeatedly rated your knowledge of the material and your very engaging presentation style as superior. Other factors that received great praise were that the materials are applicable to both general and special education students and are backed by research. Everyone loved the incorporation of music, movement, cognition and literacy into comprehensive learning opportunities and the hands-on approach you took to demonstrate the use of the materials. Many participants remarked they hope you will return in the future to share with those that did not get to attend.

You were a dream to work with and I hope we will be able offer another training next summer for those who were not able to attend the session just held.

Sincerely,

Mona Miller  
Program Director for Special Education
