PROGRAM HIGHLIGHTS

This 5 hour presentation engages YOU in powerful sensory-motor activities that work a wide range of developmental skills to help enhance young learners' readiness. This "hands-on" workshop is lots of FUN, with an educational purpose behind every motor or movement activity, exercise, music game, or dance.

❑ **The Human Brain:** Let's learn important facts and information about the human brain - how it grows, develops, and processes information.

❑ **Music and the Brain:** Explore current brain research about how we use music and movement to build brain synapses and connections, strengthen patterning, increase brain mass and brain weight, and help kids focus, develop, and learn more effectively! Learn "how to's" that really work!

❑ **Exercise and the Brain:** What do we know about exercise and learning? You'll be more active with children once you know WHY exercise is so important to help ensure academic success!

❑ **Active Boys Need Physical Outlets:** Experience physical activities that work particularly well for active boys (and girls, too!) Great for all kinesthetic learners!

❑ **Hand/eye and Hand/foot Coordination:** Simple activities and exercises that are easy to do

❑ **Finger and Hand Exercises:** Build finger and hand strength, work on pincer grip, isolate fingers, & get hands ready for proper pencil grip and writing

❑ **Balance and Body Control:** Specific exercises and activities you will want to use again and again

❑ **Develop Directionality:** Specific exercises to strengthen forwards, backwards, left and right

❑ **Exercises to Develop Laterality:** Strengthen unilateral skills, bi-lateral skills, cross-lateral skills and have fun along the way!

❑ **Floor Exercises:** Develop better spatial awareness and good motor-planning

❑ **Coordinated Bodies:** Work on isolating upper body from lower body, and sides of the body

❑ **Visual Learners, Auditory Learners, & Kinesthetic Learners** - Know the differences and plan effectively to reach and teach to them!

❑ **"Multi-sensory Approach!"** to ensure success and develop the whole child - Music is the tool!

❑ **Why Do We Dance?** - It's so much more than just moving our feet! Skills! Skills! Motor Skills!

❑ **Strengthen Sequencing Skills:** Use simple partner dances, exercises, and music games

❑ **Movement and Dance Activities:** Learn "how to" work with music games, dance, and movement, even if you think you have "two left feet!" - Great way to strengthen socialization skills and listening

❑ **Motivate the Passive Learner:** Can't fail FUN activities to engage even the most passive child

❑ **Visual Motor, Visual Tracking and Peripheral Vision:** Explore simple activities to aid visual skills.

❑ **Intentional & Strategic Teaching:** How is your overall classroom planning affected?

❑ **Strengthen Math and Internalize Math Concepts and Spatial Temporal Reasoning:** Explore songs, signing, and finger isolation activities

❑ **Teach Geometric Shapes:** Use music and movement to teach circle, square, triangle, rectangle

❑ **Imagination and Sequencing:** Learn to use drama and imagery activities

❑ **Creative and Critical Thinking Skills:** Learn how to use the 2 M's and 3 R's! - Music, Movement, Rhyme, Rhythm, Repetition - *activities with complete teaching instructions to ensure SUCCESS!*

❑ **Developmentally Appropriate Music- and How Do You Choose It?":** What to look for.

❑ **Special Students and Music and Movement:** Incorporate music, movement, sensory-motor, and dance to ensure success for EVERY child!

❑ **Learn simple music strategies every teacher can do successfully** - even if you've never been very comfortable "doing" music before!
