Keynote Presentations, Conferences, Staff Development, & Parent Programs:

Kathy Poelker is currently scheduling Keynote presentations, conference sessions, and staff development training for the new school year and beyond. Those who are familiar with Kathy's work know that she consistently provides **excellence** in her early childhood presentations. Kathy is a life-long educator who will show you how to integrate music and movement with language, literacy, math, sensory integration, brain research, overall child development and more!

Kathy Poelker's presentations are much more than "musical entertainment." Because she is an educator herself, all of Kathy's strategies and activities presented during her training are correlated to current brain research theory and practice, making her sessions empowering, practical, and beneficial. You will first learn the theory behind each and every one of Kathy's publications - her songs, movement activities, musical Big Books, drama selections, dances, and sensory-motor exercises - and then attendees will be invited to participate with Kathy in many of these activities "first-hand." Kathy Poelker's *experiential workshops* offer *theory and practice combined*, making this a day of training that addresses your specific educational goals and needs! - And you'll **NEVER** look at music and integrated curriculum activities the same way again! Kathy's workshops are so much **FUN**, with an educational purpose behind every activity! Kathy will customize your workshop day to meet your specific educational goals!
