Director

To: Anyone who is interested in quality professional development for early childhood professionals

Re: Look At Me Productions, Inc

If you have to schedule only one professional development opportunity for your early childhood program this school year, Kathy Poelker of Look At Me Productions, Inc, is the person to contact!! Ms. Poelker conducted an in-service on brain based learning using music, drama, and dance for four Head Start agencies in northeast Louisiana in August, 2012. This presentation was filled with action, dancing, singing, games, humor, new ideas, and new twists to old ideas. The staff members were fascinated with Ms. Poelker's boundless energy and enthusiasm. It was very evident that she truly believes in what she does and that educating young children can be more fun than ever.

This was the perfect way to begin a new school. Kathy Poelker provided the motivation and the tools for our staff to start the year off with a bang!!! We are sure that the bang will keep reverberating throughout the year!!
