To Whom It May Concern:

As the Halifax-Warren Smart Start Training Coordinator I had the privilege of bringing Kathy here to our child care providers in North Carolina. It was an amazing energizing and learning day.

The providers were very excited and involved in all of the activities. As child care providers they want to go to classes and workshops where they can go back to their classes and implement what they have learned. In Kathy's workshops that is exactly what happens.

The providers enjoyed her so much that they asked me to bring her back again! And I did. The second time was just as great as the first time and we are looking forward to having her again!

You leave the training with a wealth of information, knowledge, materials and she also brings her store along and you are able to purchase lots of materials!

I highly recommend Kathy to any and all early childhood learners!

Sincerely,

Cymie Terry  
Technical Assistance Training Coordinator
